

## **GENERAL SERVICES ADMINISTRATION**

### **Federal Supply Service Authorized Federal Supply Schedule Price List**

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!, a menu-driven database system. The INTERNET address for GSA Advantage! is: <http://www.GSAAdvantage.gov>.

#### **Schedule for – Multiple Award Schedule (MAS)**

**Federal Supply Group: MAS Class: R425**

**Contract Number: GS-10F-0093T**

**Price List current as of Modification #PS-0030, effective January 10, 2020**

For more information on ordering from Federal Supply Schedules, click on the FSS Schedules button at <http://www.fss.gsa.gov/schedules-ordering>  
Contract Period: December 26, 2006 – December 25, 2021

## **Joint Research and Development, Inc. JRAD**

**50 Tech Parkway, Suite 209**

**Stafford, VA 22556**

**Phone: (540) 288-3132**

**Business Size:** Small Business

**Telephone:** (804) 965-1561

**Extension:**

**FAX Number:** (804) 965-1562

**Web Site:** [www.jrad.us](http://www.jrad.us)

**Email:** [thague@jrad.us](mailto:thague@jrad.us)

**Contract Administration:** Terri J Hague

**JRAD is a Small Business as defined by the Small Business Administration**  
**JRAD is a Service-Disabled Veteran Owned Small Business**

## CUSTOMER INFORMATION

### 1a. Table of Awarded Special Item Number(s):

SIN	Recovery	SIN Description
541330ENG	541330ENG-RC	Engineering Services
541380	541380-RC	Testing Laboratory Services
541715	541715-RC	Engineering Research and Development and Strategic Planning Services
OLM	OLM-RC	Order Level Materials

2. **Maximum order for all SINs except 541380:** \$ 1,000,000  
**Maximum order for SIN 541380:** \$ 250,000
3. **Minimum order:** \$ 100
4. **Geographic coverage (delivery area):** Domestic and Overseas
5. **Point(s) of production** (city, county, and state of foreign country):  
Same as company address
6. **Discount from list prices or statement of net price:** Government net prices  
(discounts already deducted)
7. **Quantity discounts:** None
8. **Prompt payment terms:** Net 30 days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.
- 9a. Government purchase cards are accepted up to the micro-purchase threshold
- 9b. Government purchase cards are not accepted above the micro-purchase threshold
10. Foreign items: None
11. **Time of Delivery:** Specified on the Task Order
12. **F.O.B. point(s):** Destination
- 13a. **Ordering Address:**  
Joint Research and Development, Inc.  
50 Tech Parkway, Suite 209  
Stafford, VA 22556

- 13b. **Ordering Procedures:**  
For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR 8.405-3)
- 14. **Contractor Payment Address:**  
Joint Research and Development, Inc.  
50 Tech Parkway, Suite 209  
Stafford, VA 22556
- 15. **Warranty provision:** N/A
- 16. **Export packing charges:** N/A
- 17. **Terms and conditions of Government purchase card acceptance:** Contact Contractor
- 18. **Terms and conditions of rental, maintenance and repair:** N/A
- 19. **Terms and conditions of installation:** N/A
- 20. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices:** N/A
- 20a. **Terms and conditions for any other services:** N/A
- 21. **List of service and distribution points:** N/A
- 22. **List of participating dealers:** N/A
- 23. **Preventative maintenance:** N/A
- 24a. **Special attributes:** N/A
- 24b. **Section 508 compliance:** N/A
- 25. **Data Universal Number System (DUNS) number:** 149279817
- 26. **Notification regarding registration in System for Award Management (SAM) database:** Registered
- 27. **Final Pricing:** The rates shown below include the Industrial Funding Fee (IFF) of .75%.

Item	SIN	Awarded Labor Category	Site	Year 1
1	541330ENG, 541380, 541715	Junior Analyst B	Both	\$86.39
2	541330ENG, 541380, 541715	Technical Analyst I	Contractor	\$96.91
3	541330ENG, 541380, 541715	Technical Analyst I	Customer	\$62.85
4	541330ENG, 541380, 541715	Program Manager 3	Both	\$123.82
5	541330ENG, 541380, 541715	Project Manager III	Contractor	\$144.37

### **Service Contract Labor Standards/Service Contract Act (SCLS/SCA) Matrix**

SCA Eligible Labor Category	SCA Equivalent Code Title	Wage Determination No
N/A	N/A	N/A

Service Contract Labor Standards: The Service Contract Labor Standards (SCLS)) is applicable to this contract as it applies to the entire Professional Services Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish an SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

**NOTE: Experience can be substituted for education on a 2 years' experience for 1 year of education basis.**

<b>Labor Category</b>	<b>Labor Category Description</b>	<b>Education</b>	<b>Years of Exp.</b>
<b>Analyst</b>	Applies standard operations research, applied mathematics, and modeling and simulation to non-standard tasks under general supervision.	B.S.	3
<b>Engineer SME</b>	Provides subject matter expertise in test and evaluation engineering events, research and development and general engineering projects. Designs test plans, events, and studies to ensure compliance with Department of Defense standards. Well versed on DoD 5000 series regulations. Often leads an engineering team throughout through lifecycle acquisition engineering events.	B.S.	15
<b>Junior Analyst B</b>	Formulates/defines research and development scope and objectives for assigned projects. Devises or modifies procedures to solve complex problems. Participates in program design, testing, and documentation. Has technical knowledge of research application analysis and programming. Has good understanding of research analysis techniques and ability to apply them.	B.S.	3
<b>Principal Analyst</b>	Proven expertise in the areas of operations research, applied mathematics, and modeling and simulation on major and complicated tasks. Supervises and coordinates subordinate analysts on assigned projects. Works independently and coordinates staff efforts to develop creative and innovative solutions. Ensures compliance with technological standards through projects.	M.S.	10
<b>Principal Investigator II</b>	Performs basic and applied research advisory activities under supervision. Reviews documents, assists with preparation of comprehensive scientific analysis of data, assist with a variety of science related tasking both in and out of the laboratory.	B.S.	4
<b>Principal Investigator III</b>	Develops and applies novel techniques, methodology and solutions to complex problems in and out of the laboratory. Leads and mentors scientists, associate scientists, technicians and analysts in achieving results. Provides advisory and analytical support to clients and organizations, prepares schedules, work plans, and investigates activities.	B.S.	9
<b>Program Analyst I</b>	Develops, analyses, evaluates, advises on, and/or improves the effectiveness of work methods and procedures, organizations, manpower utilization, information and documentation systems.	B.S.	1
<b>Program Analyst II</b>	Develops, analyses, evaluates, advises on, and/or improves the effectiveness of work methods and procedures, organizations, manpower utilization, information and documentation systems.	B.S.	3
<b>Program Analyst III</b>	Develops, analyses, evaluates, advises on, and/or improves the effectiveness of work methods and procedures, organizations, manpower utilization, information and documentation systems.	B.S.	7
<b>Program Manager 3</b>	Responsible for cost, schedule and performance of a specific or multiple programs. Manages, supervises, and monitors technical performance. Ensures quality products and services are delivered.	B.S.	6
<b>Program Manager 3B</b>	Responsible for cost, schedule and performance of a specific or multiple programs. Manages, supervises, and monitors technical performance. Ensures quality products and services are delivered.	B.S.	10

Labor Category	Labor Category Description	Education	Years of Exp.
<b>Project Manager III</b>	Responsible for the overall management of a specific project. Ensures technical/financial solutions and schedules are implemented and executed in a timely manner. Organizes, directs and coordinates the planning for activities associated with projects. Demonstrates competent writing and oral communication skills. Ensures quality products and services are delivered.	B.S.	7
<b>Quality Assurance SME</b>	Understanding of ISO 9001/17025 systems and processes supporting qualification, environmental and reliability test programs. Motivate and train quality engineers in process implementation and inspections. Oversee the Quality Information System and write and revise procedures as necessary. Develop inspection procedures and sampling plans. Complete system and process audits.	B.S.	15
<b>Research Scientist Level II</b>	Performs functions in the scientific field in support of programs or system development. Applies scientific principles in defining and resolving system issues, performing analysis and developing plans and requirements. Coordinates and manages the preparation of analyses, evaluations, and recommendations for proper implementation of programs and systems.	B.S.	8
<b>Research Scientist Level III</b>	Performs functions in the scientific field in support of programs or system development. Applies scientific principles in defining and resolving system issues, performing analysis and developing plans and requirements. Coordinates and manages the preparation of analyses, evaluations, and recommendations for proper implementation of programs and systems.	B.S.	10
<b>Scientist I</b>	Provides analytical and research activity support to more senior level personnel. Prepares and reviews analytical information related to general sciences tasking.	B.S.	1
<b>Scientist II</b>	Provides analytical and research activity support to more senior level personnel. Prepares and reviews analytical information related to general sciences tasking.	B.S.	5
<b>Scientist III</b>	Provides analytical and research activity support to more senior level personnel. Prepares and reviews analytical information related to general sciences tasking.	B.S.	11
<b>Senior Engineer</b>	Develops and applies advanced methods, theories and research techniques in the solution of advanced system requirements and problems. Provides comprehensive definition of all aspects of systems development from analysis of mission needs to verification of system performance. Performs evaluation of alternatives and assessment of risks and costs. Plans, conducts and technically directs projects or major phases of significant projects, coordinating the efforts of technical and support staff in the performance of assigned duties. Documents the results of complex analysis and design tasks. Develops test planning documentation, including test plans, test specifications, and test procedures for integrated systems. Conducts investigations and tests of considerable complexity. Reviews completion and implementation of system additions and/or enhancements and makes recommendations to management. Assists the client in the establishment and conduct of quality assurance analysis and engineering to include periodic reviews and audits. Participates in site testing, security accreditation, and formal acceptance testing. May provide work leadership to lower level employees.	M.S.	8

Labor Category	Labor Category Description	Education	Years of Exp.
<b>Senior Manager</b>	Responsible for the direct supervision of the Business Operations staff engaged in financial and administrative activities for programs or proposals. Serves as primary liaison between company and customers. Prepares and monitors budgets. Responsible for the employment, training and discipline of assigned employees. Performs other duties, as assigned.	B.S.	5
<b>Senior Statistician</b>	Applied knowledge of the science of statistics, including statistical theory, techniques and methods encompassing such areas as sampling, ratios and proportions, measures of dispersion and central tendency, categorical data analysis and non-parametric methods. Ability to analyze and interpret statistical data for engineering efforts and test events.	B.S.	10
<b>Senior Systems Engineer</b>	Develops and applies advanced methodology in life cycle acquisition and engineering processes. Conducts investigations and tests of considerable complexity and identifies risk elements with recommended solutions.	M.S.	8
<b>SME Level III</b>	Provides extremely high level subject matter expertise for work efforts in a particular field or area. Provides advanced technical knowledge and analysis of highly specialized applications and operational environment, high-level functional systems analysis, design, integration, documentation, training, and implementation advice on complex problems which require significant knowledge of the subject matter for effective implementation. Applies principles, methods, and knowledge of specific functional areas of expertise to specific requirements. Provides advice on esoteric problems which require extensive knowledge of the subject matter. Designs and prepares technical reports, studies, and related documentation and prepares and delivers presentations, training, and briefings as required.	B.S.	15
<b>Staff Specialist Level II</b>	Responsible for preparing and/or maintaining systems, operations documentation, user manuals, reference manuals, briefings, etc. Maintains current internal documentation for reference. Provides or coordinates special documentation services as required. Gathers, analyzes, and composes technical information. Conducts research and ensure the use of proper technical terminology. Translates technical information into clear, readable documents to be used by technical and non-technical personnel.	B.S.	4
<b>Staff Specialist Level III</b>	Responsible for preparing and/or maintaining systems, operations documentation, user manuals, reference manuals, briefings, etc. Maintains current internal documentation for reference. Provides or coordinates special documentation services as required. Gathers, analyzes, and composes technical information. Conducts research and ensure the use of proper technical terminology. Translates technical information into clear, readable documents to be used by technical and non-technical personnel.	B.S.	10
<b>Staff Support I</b>	Supports program staff in areas such as administration, communications, technical writing, protocol, quality assurance and documentation management of technology programs.	H.S.	1

Labor Category	Labor Category Description	Education	Years of Exp.
<b>Staff Support III</b>	Supports program staff in areas such as administration, communications, technical writing, protocol, quality assurance and documentation management of technology programs.	B.S.	6
<b>Systems Engineer</b>	Under leadership supervision, assists in identifying processes for life cycle acquisitions in research and development and test and evaluation efforts. Documents efforts through the use of automated software and systems and tracks phases of significant projects to ensure compliance with customer requirements.	B.S.	4
<b>Systems Engineer 3B</b>	Develops and applies systems engineering methodology, theories and research techniques in the solution of system requirements and problems. Develops comprehensive definitions of systems development from analysis of mission needs to verification of system performance. Performs evaluation of alternatives and assessment of risks and costs. Documents the results of complex analysis and design tasks.	B.S.	12
<b>T&amp;E Engineer 2</b>	Supports test and evaluation technical effort. Performs typical tasks that include, but are not limited to, prototype development and first article testing, environmental testing, operational test and evaluation, independent verification and validation, demonstration and validation, simulation and modeling, system safety, quality assurance, education and training, and physical testing of the product or system.	B.S.	8
<b>T&amp;E Engineer 3</b>	Supports test and evaluation technical effort. Performs typical tasks that include, but are not limited to, prototype development and first article testing, environmental testing, operational test and evaluation, independent verification and validation, demonstration and validation, simulation and modeling, system safety, quality assurance, education and training, and physical testing of the product or system.	B.S.	8
<b>T&amp;E Engineer I</b>	Supports test and evaluation technical effort. Performs typical tasks that include, but are not limited to, prototype development and first article testing, environmental testing, operational test and evaluation, independent verification and validation, demonstration and validation, simulation and modeling, system safety, quality assurance, education and training, and physical testing of the product or system.	B.S.	3
<b>T&amp;E SME</b>	Supports test and evaluation technical effort. Performs typical tasks that include, but are not limited to, prototype development and first article testing, environmental testing, operational test and evaluation, independent verification and validation, demonstration and validation, simulation and modeling, system safety, quality assurance, education and training, and physical testing of the product or system.	B.S.	10
<b>Technical Analyst I</b>	Assists and supports day-to-day general and specific technical task needs for and under the direction of the Program Manager, Deputy Program Manager.	B.S.	3

Labor Category	Labor Category Description	Education	Years of Exp.
<b>Technical Engineer I</b>	Provides engineering support for problem definition, analysis, requirement development and implementation for complex systems in the engineering discipline required to meet technical requirements. Makes recommendations and advises on research development, improvements, optimization, or support efforts. Performs risk assessments and innovative use of new research concepts or improved techniques and procedures.	B.S.	3
<b>Technical Engineer II</b>	Provides engineering support for problem definition, analysis, requirement development and implementation for complex systems in the engineering discipline required to meet technical requirements. Makes recommendations and advises on research development, improvements, optimization, or support efforts. Performs risk assessments and innovative use of new research concepts or improved techniques and procedures.	B.S.	7
<b>Technical Engineer III</b>	Provides engineering support for problem definition, analysis, requirement development and implementation for complex systems in the engineering discipline required to meet technical requirements. Makes recommendations and advises on research development, improvements, optimization, or support efforts. Performs risk assessments and innovative use of new research concepts or improved techniques and procedures.	B.S.	9
<b>Technician I</b>	Assists scientists and engineers in all facets of support activities including collection of data, data analysis, data entry, and field observations. Performs laboratory testing and evaluation activities.	H.S.	0
<b>Technician II</b>	Assists scientists and engineers in all facets of support activities including collection of data, data analysis, data entry, and field observations. Performs laboratory testing and evaluation activities.	H.S.	3
<b>Technician III</b>	Assists scientists and engineers in all facets of support activities including collection of data, data analysis, data entry, and field observations. Performs laboratory testing and evaluation activities.	B.S.	9
<b>Test and Evaluation Engineer</b>	Develops test planning documentation, including test plans, test specifications, and test procedures for integrated systems. Conducts investigations and tests of considerable complexity. Reviews completion and implementation of system additions and/or enhancements and makes recommendations to management. Assists in the establishment and conduct of quality assurance analysis and engineering to include periodic reviews and audits. Participates in site testing, security accreditation, and formal acceptance testing for cyber-related activities.	B.S.	5
<b>Test Specialist I</b>	Provides test and evaluation advisory and/or laboratory support of acquisition projects. This includes activities such as, but not limited to, developing and documenting test plans and procedures, conducting testing, and evaluating and documenting results. Prepares studies, plans, and analyses in support of various projects and tasks.	B.S.	3

Labor Category	Labor Category Description	Education	Years of Exp.
<b>Test Specialist II</b>	Provides test and evaluation advisory and/or laboratory support of acquisition projects. This includes activities such as, but not limited to, developing and documenting test plans and procedures, conducting testing, and evaluating and documenting results. Prepares studies, plans, and analyses in support of various projects and tasks.	B.S.	6
<b>Test Specialist III</b>	Provides test and evaluation advisory and/or laboratory support of acquisition projects. This includes activities such as, but not limited to, developing and documenting test plans and procedures, conducting testing, and evaluating and documenting results. Prepares studies, plans, and analyses in support of various projects and tasks.	B.S.	10
